About Gil & Vicki Ash

Both Gil and Vicki are NSCA Level III Instructors. They have been shooting clay targets competitively since 1975 and sporting clays since 1982. They teach 2,000 + students each year at gun clubs across the United State, and in Canada and South America. With nine books authored, six instructional DVD's in production, and more instructional books and DVD's on the way, the Ash's have the largest single

source library of instructional material on shotgunning in the world.

Unlike other instructors, they are natural teachers who have studied and practiced not only shooting, but the psychology of learning and performance, and they have developed the most effective teaching approach in the industry. The common sense teaching method of OSP helps students understand how their eyes, mind and body function together. Once this is learned,

understanding why they succeed or fail when shooting a shotgun becomes simple! This powerful insight can be applied to all aspects of your personal life and business, making you not only a better shooter, but a better performer at everything you do. Beginners, professionals, and everyone in between are sold on the unique teaching style of Gil and Vicki, who, as Bill Bacon, Level II Instructor and American Shooting Center President states, "are simply the best in the business."
