CLASSIFICATION & HANDICAPPING

NEW SHOOTER:

Singles—Class B if less than 500 PITA singles targets.

Doubles—Class B if less than 200 PITA doubles targets.

Handicap—20 yards for all shooters except Lady and Sub-Junior categories which start at 19 yards.

ATA SHOOTER JOINING PITA:

Singles—current ATA average if they have shot a minimum of 500 ATA singles targets otherwise see “new shooter” section above.

Doubles—current ATA average if they have shot a minimum of 200 ATA doubles targets otherwise see “new shooter” section above.

Handicap—A shooter who is a member or has ever been a member of the ATA and is joining PITA for the first time will be assigned yardage equal to their ATA yardage.

ESTABLISHED PITA SHOOTER:

Singles—On average beginning with at least 500 PITA singles targets—then on an increasing total until 1,000 targets—then on the last 1,000 targets. Abnormally low scores* will be disregarded and an additional score substituted to calculate the average after 1,000 targets. A PITA shooter who has not shot 16 yd targets for one or more years shall resume shooting from their last assigned class unless they have an established ATA classification that is higher.

Doubles—On average beginning with at least 200 PITA doubles targets—then on an increasing total until **800** targets—then on last **800** targets. Abnormally low scores* will be disregarded and an additional score substituted to calculate the average after **800** targets.

Handicap—PITA yardage unless shooter has a current established longer ATA yardage in which case that will become the shooter’s yardage. Their PITA card will be punched to reflect this yardage and it will be noted on the Earned Yardage Report. However, if a shooter has not shot ATA handicap targets in the current or previous year their ATA yardage will be disregarded. A PITA shooter rejoining after an absence of one or more years must resume shooting from their previous yardage unless they have established a greater current ATA yardage.

***Abnormally low scores are those scores 10 targets below your average.**
