It was a very successful shoot, with shooters coming from California, Washington and B.C. Three 100 straights were shot, with many 99's and 98's coming in as well. For Dave Bare of Wheatland, California, it was his first 100 straight.

The weather was fantastic, with warm sunny days and cool nights for good sleeping. The deer were just a simple problem, as they just wiggle their tails and step out of the way of the descending shot. As usual, the meals served to the hungry shooters was out of this world good - it's been said that the shooters come for the food, not the shooting!

I will attempt to send some photos in the next message.

Thanks again,
Peggy Bare
